

# PLACES WITHOUT WHICH DEJ WOULDN'T BE DEJ

---

Avram Iancu School

# LEMNUL VERDE CAKE SHOP

- It was opened in 1862.
- The cake shop`s first name was the Big Tree and after some time it was changed in the name that everyone knows today.
- It got its name from the trees that offer a little bit of chill in the summer days.
- In the 1900 s the restaurant used to have 3 events every week either balls, shows or gatherings.
- During 1946-1948 the cake shop was closed and it was made the headquarters of a political party.
- But the locals asked to have their cake shop re-opened and they succeeded.
- In the 2005 the restaurant was affected by a fire but the green tree, which is still the heart of the place, didn't suffer any damage.

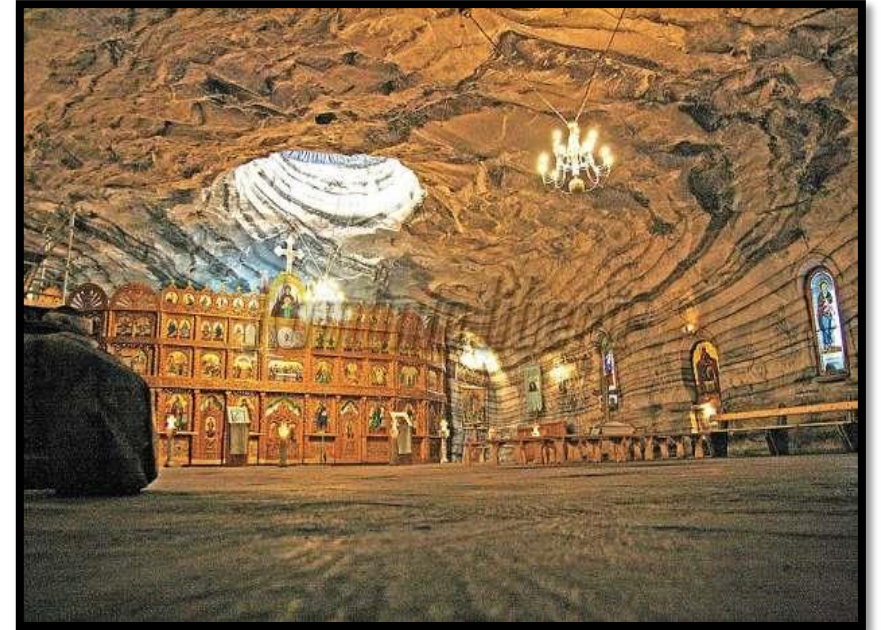

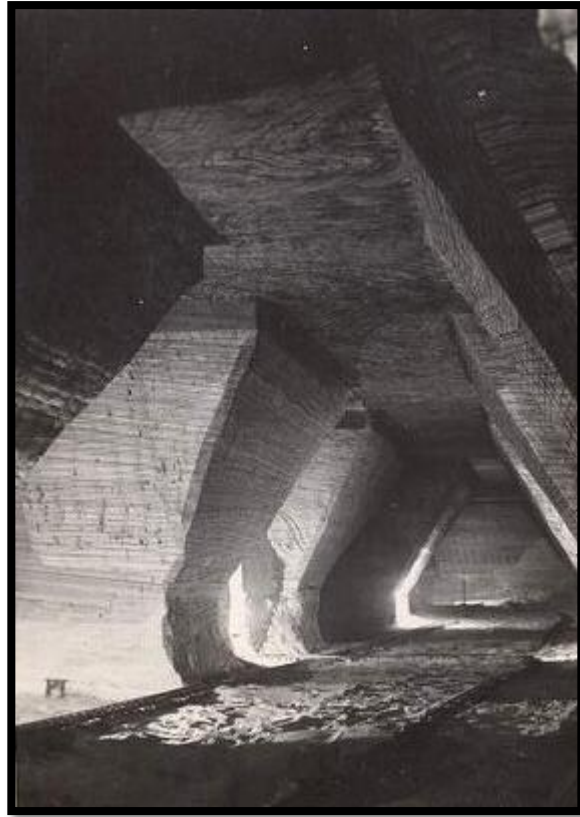

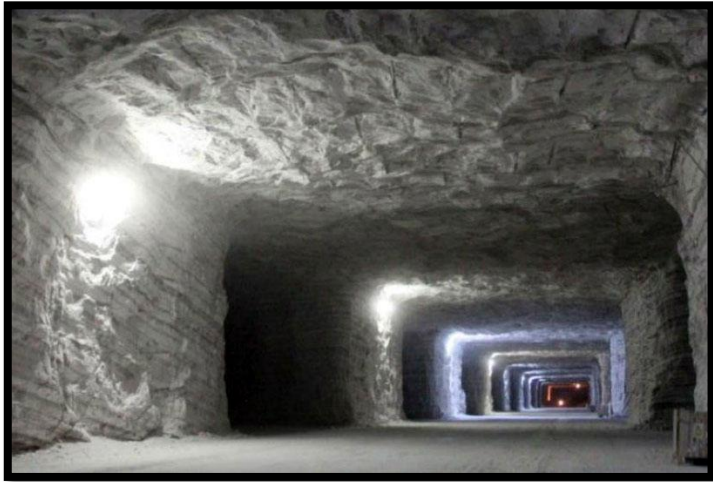

# Bungăr Forest

- It was a Jewish camp
- Around 7.700 Jewish people were brought here
- It was a place deprived of water and even of any basic means of living
- It wasn't even enough space for all of those people (each person had 2m<sup>2</sup> to sleep and walk).
- They had to live under the clear sky, without any sheets or blankets or shelter of any kind
- There wasn't any water for the prisoners
- From Bungăr Forest they were all transported to Auschwitz

# The Salt Mine

- The mine is part of the Salt`s National Society
- The salt from the mine in Ocna Dej is commercialised in our country, but also abroad.
- The mine is still exploited but it is also used as a touristic attraction or medical purposes.
- Inside the mine there is a church, with ornaments carved in salt.
- In the old times Dej used to be a harbor, so that the salt could be transported in different parts of the country.

# Toroc Spa

- The spa was opened in 2010.
- Before being one of the most beautiful spa, the area was known for the salt extraction.
- The 1600 m<sup>2</sup> natural lake is the main attraction for the visitors, which was formed after the salt extraction, which makes it a salt lake.
- A lot of people visit the salt lake to cure some health problems.

THANKS FOR YOUR  
ATTENTION!!!!!!
